SUMMARY

Computer Science undergraduate with hands-on experience in AI/ML, data analytics, and software development through academic and self-driven projects. Skilled in Python, SQL, Java, React, and data analysis tools, with experience building machine learning applications and interactive web solutions. Known for strong communication, leadership involvement, and a curiosity-driven approach to learning emerging technologies and digital tools.

EDUCATION

Institute of Business Administration Sukkur

Aug 2023 - May 2027

Bachelor of Science, Computer Science

- **GPA:** 3.1

Degree Collage – Salehpat

Sept 2023

Intermediate, Pre-Engineering

PROJECTS

Personality-Based Study Technique Predictor

- Developed a machine learning-based recommendation system using Python, Pandas, and Scikit-learn to provide personalized study technique suggestions.
- Performed data preprocessing, feature engineering, and exploratory data analysis on behavioral datasets collected through Google Forms.
- Integrated predictive insights into a React-based frontend to deliver real-time user recommendations and interactive visualization.

Arpi's Atelier E-Commerce Platform

- Accomplished a fully responsive, high-performance web storefront for a handmade jewelry brand, achieving improved user engagement through interactive UI components.
- Developed using modern CSS layouts and JavaScript-driven interactivity to simulate a real-world business environment.

Furry Friends Finder

- A simple cute yet working project build with JAVA for GUI and coding with SQL for database.
- this projects is Pet Adoption application where you can check pets in a adoption center and adopt the one you like.

Study Buddy

- A JAVA GUI based project build using JAVA with SQL for database support that helps students store their notes and retrieve edit or review them easily.
- It also had an timer for students to adapt focus learning, build with smoothing GUI and ease .

Grade Bean

- A JAVA GUI based project build using JAVA with SQL for database support that helps students store their notes and retrieve edit or review them easily.
- It also had an timer for students to adapt focus learning, build with smoothing GUI and ease .

Fun Trivia

- A C++ language CMD based project.
- A 2 player game that helps user have fun time with Easy , common, and fun question.
- Once a user give right answer the state of player is updated.
- The first one to come 50th place would win the game.

SKILLS

• Programming Languages

- Python, Java, JavaScript, C++, SQL

• Web Technologies

- React, HTML, CSS, Nodejs

• Data & AI Tools

- Pandas, NumPy, Scikit-learn, Jupyter Notebook, google Collab

• Tools & Platforms

- Git, GitHub, VS Code, IntelliJ IDEA, Firebase

• Core Competencies

- Machine Learning Fundamentals, Data Analysis & Visualization, Object-Oriented Programming (OOP), Software Engineering Principles, Problem Solving, Team Collaboration, Communication Skills
- **Soft Skills:** Problem Solving & Analytical Thinking, Effective Communication & Presentation, Team Collaboration, Adaptability & Quick Learning, Time Management & Prioritization, Creative Thinking & UI/UX Awareness

RELEVANT COURSEWORK

- Artificial Intelligence
- Machine Learning
- Data Structures & Algorithms
- Database Systems
- Software Engineering
- Operating Systems
- Web Engineering

VOLUNTEERING & LEADERSHIP

- **SIBATHON — Co-Lead, Media & Marketing**
 - Led media coordination and marketing initiatives to improve event outreach and audience engagement.
 - Collaborated with teams to manage digital promotion strategies and event communication.
- **Student Talent Program — Marketing Director**
 - Managed and executed multi-platform marketing campaigns to increase student participation and engagement.
 - Coordinated promotional activities and communication efforts across student communities.
- **SIBAU Model United Nations — Organizer**
 - Coordinated event logistics and supported committee management for a large-scale academic conference.
 - Worked collaboratively with organizing teams to ensure smooth event execution.
- **National Incubation Centre (NIC) — Content Director**
 - Contributed as a content writer and creator for student-focused initiatives and digital outreach.
 - Developed communication and professional content development skills.
- **Eagle Nest Leadership Bootcamp — Participant**
 - Completed an intensive leadership residency focused on collaboration, decision-making, and teamwork.
